## **INSPECTION REPORT**

TEST DATE:	12-11-20	s	START TIME	WATER LEVEL	GPM
Customer:	Mary Jones				
LOCATION:	Street Address				
	City, CA				
Contact:	Mary @ 555-555-5555				
APN#	01-01-01-000				
WELL INSPECTION CONDUCT BY:	Steven				
STATIC WATER LEVEL	10				
	10				
DEPTH OF WELL	183				
DEPTH TO PUMP	167				
CASING	5 inch PVC				
PUMP SIZE/TYPE	1.5 HP Sub 18GS15				
MOTOR SIZE/TYPE	18GS15				
VOLTAGE/AMP DRAW	230 v / 10.4 Amps				
PUMP SAVER	No				
PRESSURE TANK SYST.					
VARIABLE SPEED	N/A				
PRESSURE SETTINGS	N/A				
BOOSTER PUMP/TYPE	Goulds 45HB30				
VARIABLE SPEED	3AB2				
PRESSURE TANK SYST.	20 Gallon Bladdar				
PRESSURE SETTINGS	60 PSI				
VOLTAGE/AMP DRAW	230 v / 7.2 Amps				
STORAGE TANK/TYPE	5000 gallon Polly				
FLOAT CONTROLS/TYPE	electric				
NEED REPAIRS:					
Electrical system is currently not to code, Well seal needs to be					
replaced, pressure system is showing signs of age and should be replaced before it fails. Equipment is estimated to be 12 +					
years old but was functioning as it should at the time of					
inspection. Water quality has obvious signs of maganeses.					
Length of test hours	not performed				
This Well produces					
Recovered
